“To us ‘success’ means our Clients can sleep well at night with confidence that they are in the capable hands of our Firm.”

**Satish Kumar Srivastav,
Founder**

S.K. Srivastav & Co. Law Firm Setting precedent everyday

All of our possessions, employment, and official or informal commercial relationships are subject to legal restrictions. The establishment, management, enforcement, and even termination of businesses are all governed by Law. Legal help is necessary for the drafting & implementation of Agreements, Legal contracts, understandings, wills, and other legal documents in everyday life and business. In any case, smart strategic planning entails working early on with a reputable Law Firm to make sure that you and your Company are protected from Legal problems in future.

S.K. Srivastav & Co., has been offering specialized solutions for Business, Corporate, Arbitration & Dispute Resolution, Intellectual Property Rights, and International Law-related issues.

The Firm has solidified its foundation today under the capable leadership of Satish Kumar Srivastav by adhering to the technique to first comprehend, then strategize based on the facts and Law, and subsequently outlay the best-suited solution extracted from a team of competent Lawyers. With more attention being paid to Indian activities, the Firm serves as a window for a more accurate and current view of India. The Firm has headquarters in Mumbai and New Delhi, and its associates represent them in major cities in India and the World.

In 1985, Mr. Satish Kumar Srivastav established S. K. Srivastav & Co, Law Firm. His areas of expertise include Intellectual Property issues, Corporate and Commercial Litigation, Arbitration, and Dispute Resolution. Additionally, Mr. Srivastav has a licence to practise Law in the Supreme Court of England and Wales as a Solicitor. The International Bar Association (IBA) awarded him with a Fellowship. He has also been appointed as a Special Counsel to represent the State of Maharashtra before the Bombay High Court.

He has been practicing Law before the Supreme Court of England and Wales, the Supreme Court of India, and the High Courts of Bombay, Delhi and other High Courts. He has appeared and handled cases in a number of Indian Courts. He has a wealth of experience in Commercial, Corporate, and Civil Litigation and is employed as legal counsel by many different business houses. He is a certified Adjudicator and Mediator with extensive expertise, and he also serves as an Arbitrator.

Mr. Srivastav started out as a solo practitioner, but over the course of 35 years, he built his Law Firm slowly but progressively and currently the Firm is being utilized to help people in a wide range of sectors, including Commercial Corporate Arbitration, Dispute Resolution, Intellectual Property, Real Estate, and International issues.

Mr. Srivastav shares "The Firm specializes in Devising Tailor made Strategies for all Legal Needs. One of the unique abilities of the Firm is to resolve cases on terms acceptable to the Clients". Once the Firm is retained, the Clients can sleep well at night with confidence that they are in capable hands of the Firm.

The Law Firm has been successful in providing customized solutions to their Clients. The Firm believes that one must attempt to resolve the situation rather than offering individual advice to instigate and litigate in Court. The Firm's goal is to find a solution that will enable the Parties to reach a successful settlement. It has the distinction of successfully resolving more than 60% of the cases it handles through mutual settlements, and it works tirelessly to do so for the remaining 40% in Court. The Firm and Mr. Srivastav supports this; they want people to benefit the most from cases outside of Court.

The most respected Global Lawyer Directories have consistently recognised and listed the Firm for its dedicated efforts. The Firm was listed as One of the Top Law Firms in India by Asia Pacific Legal 500 and Asia Profile. Mr. Srivastav is elected as the President of Advocates Law Firm Association (ALFA).

Speaking from over three decades of experience, Mr. Srivastav has some strong advice for future generations seeking a Law Career. He advises that this is a profession that demands hardwork and a lifelong learning attitude. He says "You cannot expect to study three or five years and become a complete Lawyer, you have to continue learning, especially in a Country like India where the Laws and acts keep changing. To become a successful Lawyer, you must carry a lifelong attitude".
